## DevSecOps in Luxembourg

Apply Now

Company: EyeTech Solutions

Location: Luxembourg City

Category: computer-and-mathematical

### Main missions:

Security integration: Integrate security practices throughout the software development lifecycle, from initial design to deployment and maintenance.

Security automation: implement automation processes for detecting, preventing and correcting security vulnerabilities throughout the DevOps pipeline.

Regulatory compliance: ensure that applications and infrastructures comply with current security standards and regulations, such as GDPR, PCI DSS, HIPAA, etc.

Identity and access management: Implement policies and procedures to securely manage identities and access to system and application resources.

### Profile:

The ideal candidate will demonstrate skills in **coding** (Go, Python, PHP, NodeJS, Shell), **DevOps** (Gitlab, Terraform, Ansible), and in-depth knowledge of **Security services**. A first experience in the banking sector is a real asset. In addition, this candidate must speak **French and English**.

### Job offer:

Open-ended employment contract

attractive salary of around 85,000 euros depending on experience

Agile, dynamic and growing work environment.

Possibility of regular telecommuting.

Hybrid work organization with a financial contribution for home equipment.

Relaxation area with unlimited coffee, tea and fruit.

Mail vouchers
