Feel the Drive For us, that means experiencing mobility with all the senses. We work for more comfort, wind in your hair, the perfect temperature in every season, and driving with a clear conscience - for a safe and sustainable future.

We fill mobility with joy - are you with us?

As a family-owned global group of companies, we are the world market leader in roof and convertible systems and parking heaters. We are also an established partner for charging solutions and battery systems. Do you like to take on responsibility with vision? Then use your expertise and passion to help shape our success story.

At Grevenmacher we make more than automotive glass. We make people's lives safer and more comfortable along their journeys. Every day, we unite as a team to deliver quality products and innovative solutions that earn our customer's trust and build lasting relationships.

You can look forward to these exciting tasks:

Setting up each tool prior to a scheduled run, ensuring process parameters are met and part quality is acceptable

Proposing and implementing continuous improvement actions in close relation to production, maintenance, engineering, development, and quality departments

Participating in the development of the LEAN manufacturing program

Taking part in the development and implementation of new processes for future products

Participating in training to increase skills

Reports directly to Process Managers

Here's what you can bring to the team:

Completed Bachelor's degree or a degree in mechanical or maintenance engineering

Having practiced in LEAN manufacturing is appreciated and considered a plus

2-5 years of experience in an industrial environment is a plus

Must have a process approach to troubleshooting and problem-solving

Self-starter able to work with limited supervision to maintain process quality

Able to set up and maintain quality production standards

Ability to perform mathematical calculations associated with processing parameters

Strong communication skills

Experience in the automotive industry

Fluency in English or French, and German is an advantage

Basic mechanical and electrical knowledge
